INTERCHANGE INFORMATION SHOWN ABOVE IS BASED ON INFORMATION AVAILABLE AT TIME OF PUBLICATION PORTIONS OF WHICH WERE OBTAINED FROM UNCONFIRMED SOURCES. THEREFORE ACCURACY OF INTERCHANGE INFORMATION CANNOT BE ASSURED.

The 66855B brake drum is nearly identical to Webb's current 66854B, the only deviation being that the 66855B is machined without an oil groove in the wraparound (see figure below). Therefore, the 66855B brake drum will fit most applications where a 66854B brake drum is used, with the exception of a limited number of school bus applications where the machined oil groove is required. If a 66855 brake drum is required though balance isn't necessary, the equivalent unbalanced version of the 66855B brake drum is a 66854F.
